Have a question? Call us at 800-588-7039 or email us at contact@bhfe.com.

Learning Objectives

Upon completion of this course, the student should be able to:

1. Describe the early attempt to calculate appropriate life insurance amounts known as the human life value method.
2. Understand the importance of basing client insurance requirements on a thoroughgoing analysis of needs.
3. Gather the appropriate client information required to perform an insurance needs analysis.
4. Identify and calculate a client's family's lump-sum needs at the death of a breadwinner.
5. Understand the Social Security survivor benefits that need to be considered in analyzing survivors' needs for life insurance to replace income.
6. Identify and calculate survivors' income needs during the dependency period, blackout period and retirement period.
