Pennsylvania Board of Accountancy: PX178025

Texas State Board of Accountancy: 009349

Course Description

Derivatives and hedges have a well-earned reputation for arcane accounting rules. This course cuts through the jargon to the essential accounting required for derivatives and hedges, as well as the associated controls and disclosures. It specifically emphasizes cash flow hedges and fair value hedges. In addition, it is helpful to see how derivatives are used, so the course addresses how they can be deployed to mitigate certain types of risk.

Program Delivery Method: NASBA QAS Self-Study (interactive)

Subject Codes/Field of Study

NASBA (CPA): Accounting

Course Level, Prerequisites, and Advance Preparation Requirements

Program level: Overview

Prerequisites: Basic familiarity with accounting practices.
