Texas State Board of Accountancy: 009349

Course Description

Auditors use the audit risk model to determine the total amount of risk associated with an audit. In the *Audit Risk Model* course, we describe how this model works and how the auditor can use it to manage audit risk. We note situations in which the model indicates unacceptable audit risk, as well as cases in which expanded audit procedures can overcome these concerns. The course also addresses the concepts of audit evidence and audit sampling.

Course Content

Publication/Revision date: 11/12/2023.

Author: Steven M. Bragg, CPA.

Final exam (online): Five Questions (multiple-choice).

Program Delivery Method: NASBA QAS Self-Study (interactive)
