Hawaii Board of Public Accountancy: 14003

New York State Board of Accountancy (for ethics): 002146

Ohio State Board of Accountancy: CPE .51 PSR Pennsylvania Board of Accountancy: PX178025 Texas State Board of Accountancy: 009349

#### **Course Description**

The risk of needing long term care—a name given to a broad range of services designed to meet an individual's mental, emotional or physical health and personal needs and which are often provided over an extended period of time—is present at all ages. However, as individuals become older the risk of requiring long term care increases significantly.

The U.S. population is expected to increase in size by about 27% by the year 2050. In contrast, the part of the U.S. population most at risk for needing long term care—the segment comprised of individuals 85 years old or older—is expected to grow about 280% during this same period. Not only is the part of the population most at risk for needing long term care growing disproportionately, the cost to provide that care is also increasing. Long term care costs are substantial and, over the last several years, have been increasing at a rate that exceeds the inflation rate.

The growing risk of needing long term care fueled by a rapidly aging population coupled with the high and continually increasing cost of such care can present burdensome financial concerns to many clients and their heirs. This course examines the nature of long-term care, the forms in which it may be delivered, the risk of needing such care, the costs of long term care, the sources available to pay long term care costs and the features of long term care insurance.

#### **Course Content**

Publication/Revision Date: 1/14/2025

Course author: Paul J. Winn, CLU, ChFC Final Exam (online): 25 questions (multiple choice)

Program Delivery Method: Self-Study (NASBA QAS Self-Study/interactive)

#### Subject Codes/Field of Study

CFP Board of Standards, Inc: Insurance Planning; IDFA: Financial Planning

NASBA (CPA): Specialized Knowledge and Application

#### Course Level, Prerequisites, and Advance Preparation Requirements

Program Level: CFP Board, NASBA/CPA: Overview; IDFA: Beginner

This program is appropriate for professionals at all organizational levels.

Prerequisites: None

Advance Preparation: None

#### **Instructions for Taking This Course**

- You must complete this course within one year of purchase (If the course is "Expired," contact us and we will add the latest edition of the course to your account (no charge).
- To retain the course-PDF after completion (for future reference) and to enable enhanced navigation: From "My Account," Download and save the course-PDF to your computer. This will enable the search function (Menu: Edit>Find) and bookmarks (icon on left side of document window).
- Complete the course by following the learning objectives listed for the course, studying the text, and, if included, studying the review questions at the end of each major section (or at the end of the course).
- Once you have completed studying the course and you are confident that the learning objectives have been met, answer the final exam questions (online).

#### Instructions for Taking the Online Exam

- Go to "My Account" and locate this course in your Active Courses list.
- Click "View Course," then "Course Exam," then "Open Exam." (You can print the exam questions for reference purposes using the "Print Exam Questions" link.)
- A passing grade of at least 70% is required on the exam for this course.
- You will have three attempts to pass the exam (call or email us after three unsuccessful attempts for instructions).
- The exam is not timed, and it does not need to be completed in one session.
- Once you pass the exam, the results (correct/incorrect answers) and certificate of completion appear in "My Account." A confirmation email is also sent.
- CFP Board and IRS credit hours, if applicable, are reported on Tuesdays and at the end of the month.

Have a question? Call us at 800-588-7039 or email us at contact@bhfe.com.

# **Learning Objectives**

Once you have completed the course, you should be able to:

- Recognize the types of services that constitute long term care and the settings in which they are provided;
- Compare the benefit triggers associated with qualified and nonqualified long term care:
- Identify the national average cost in the United States of obtaining various types of long term care and the sources available to pay for the care;
- Recognize the benefits and tax treatment of long term care insurance and the alternatives for funding long term care; and
- Describe the suitability and ethical issues associated with recommending the purchase of long term care insurance.
